

## PBJ's Flume v2.0 and Drenched v1.0

To install Drenched:

Extract the folder "PBJDrenched" to Your RollerCoaster Tycoon® 3 Directory>Style>Themed. Extract the files "pbjflumesplash"; "pbjsoakerspray"; "pbjsoakervertical" to Your RollerCoaster Tycoon® 3 Directory>ParticleEffects. Be sure you do not change the names of the files and have placed them in the correct location or the set will not function properly within the game.

To install the flume version:

Open the folder "Flume" and extract the folders "CTR\_PBJLargeflume" and "CTR\_PBJSmallflume" to Your RollerCoaster Tycoon® 3 Directory>Cars>TrackedRideCars. Extract the folder "CTR\_PBJFlumetrack" to Your RollerCoaster Tycoon® 3 Directory>tracks>TrackedRides. Be sure you do not change the names of the files and have placed them in the correct location or the CTR will not function properly within the game.

To install the corkscrew version:

Open the folder "Corkscrew" and extract the folders "CTR\_PBJLargeflumecoaster" and "CTR\_PBJSmallflumecoaster" to Your RollerCoaster Tycoon® 3 Directory>Cars>TrackedRideCars. Extract the folder "CTR\_PBJFlumecoastertrack" to Your RollerCoaster Tycoon® 3 Directory>tracks>TrackedRides. Be sure you do not change the names of the files and have placed them in the correct location or the CTR will not function properly within the game.

NOTE: The corkscrew version was made by popular request and may or may not align with the splashes in the scenery set.

Enjoy,

PB&J
